

I began working with Senior Lifestyle Solutions in 2018 as a caregiver. The experience and knowledge I gained while caregiving has proven beneficial as I moved into the role of Administrative Assistant and then to my current position. As Director of Client Services, my responsibilities include client assessment, client care planning, managing client and caregiver schedules, and administrating billing and payroll procedures. I also actively communicate with our caregivers about the wellness of the clients they serve, assist in caregiver interviews, conduct ongoing caregiver training, and I am active in crisis management.
